102nd Annual Clallam County Fair

Fair time is rolling around again. Our four day fair is scheduled to begin on Thursday, August 17th. Individuals and groups should be planning displays and exhibits for this county's outstanding event.

YOU DO NOT HAVE TO BELONG TO 4-H OR A CLUB TO ENTER AN EXHIBIT!! Any resident of Clallam County can enter.

This exhibitors' guide is provided to assist those who wish to prepare exhibits for the 2023 fair.

It is presented with a feeling of appreciation for the interest and services of those citizens who have contributed time and money in cooperation with the Fair Board to make the fair successful.

Down through the years, the Clallam County Fair has been noted for its spirit of cooperation and good showmanship. It is expected that the keen interest of past years will be renewed for this year as well.

LONG RANGE PROGRAM

The long-range program of the Fair Advisory Board, comprised of your representatives, includes a good progressive program for the eventual use of the fairgrounds for year-round activities.

FAIR ATTRACTIONS

Our Grandstand attractions, two stages, walk around entertainers and prime rodeo promise another fine family event.

You are urged to come and bring your family. It is your fair, your Show, and it is YOU who makes it a success.

All Barns and Buildings will be open from 9a.m. until 9p.m. each day of the fair except Sunday, when they close at 7p.m. All non-animal exhibits will be judged prior to the opening of the fair.

STANDARDS FOR JUDGING FAIR EXHIBITS

Two systems of standards are used to judge exhibits at the Clallam County Fair.

1. **DANISH SYSTEM:** Each entry is judged against a standard. Entries are awarded a Blue Ribbon for Excellent, a Red Ribbon for Very Good, and a White Ribbon for Good. Every entry receives a ribbon unless it has been disqualified.
2. **AMERICAN SYSTEM:** This system allows the judge to rank the entries in the order of overall quality. Each entry in a class is compared with the other entries in the same class. Four to six ribbons can be awarded, depending on the class. For example, only one Blue Ribbon can be awarded in each class.

FAIR REGULATIONS

To meet its obligation under the animal disease laws, the state Department of Agriculture has established the following livestock health requirements for fairs, rodeos, exhibits, shows, etc., hereinafter referred to as fairs.

WSDA 2023 RECOMMENDATIONS FOR ANIMAL HEALTH STANDARDS AND LIVESTOCK INSPECTION FOR COUNTY, DISTRICT & STATE FAIRS

1. Each fair should have an official fair veterinarian in attendance.
2. Individual Certificate of Veterinary Inspections on Washington animals is not required for entry into the fair. If the fair requires a Certificate of Veterinary Inspection on in-state animals, then a private veterinarian can issue a certificate of veterinary inspection per group or individual.
3. No animal from a quarantined area or premises may be permitted to enter the fair or show.
4. OUT-OF-STATE ANIMAL ENTRIES MUST COMPLY WITH STATE OF WASHINGTON IMPORT REGULATIONS. NO EXEMPTIONS UNLESS EXEMPTED BY RULE.
5. Fair veterinarians should inspect all classes of livestock and poultry (including but not limited to cattle, sheep, swine, horses, pet animals, rabbits, fur-bearing animals, pigeons, ducks, geese and turkeys, etc.) before they are exhibited to determine that the livestock and poultry show no clinical indications of contagious, infectious diseases and ectoparasites.
6. Fair veterinarians should reject any animal with infectious or contagious diseases or ectoparasites. Exhibitors should be made aware that ringworm, warts, pinkeye, strangles, contagious ecthyma, scabies, lice, mites, ticks and fleas fall into these categories. If you choose to vaccinate poultry for ILT (Infectious Laryngotracheitis) Tissue Culture origin or recombinant ILT, they should be vaccinated 30 days or more before the show. Poultry infected with the field strain of ILT can shed the virus when stressed, resulting in other birds becoming infected.
7. Fair veterinarians must check out-of-state exhibitors for proper import documents and required testing.
8. It is strongly recommended, but not required, that cattle be vaccinated in the current show year against respiratory diseases.
9. The fair veterinarian's professional decision as to the health status of an animal must be final and be upheld by the Fair Board. Animals exhibiting disease symptoms during the course of the fair should be rejected by the fair veterinarian and removed from the exhibit area.
10. It is strongly recommended to supply separate barns for separate species including chickens, turkeys, ducks and geese. Wash racks, show rings and loading and unloading equipment should not be shared between cattle and sheep/goats. If this is not possible, cattle should be exhibited first, then exhibit the sheep/goats. Practice good animal health biosecurity, which includes cleaning and disinfection.
11. Clean cages, food and water containers daily. Disinfect all equipment before entering the fairgrounds. Restrict direct contact between birds during the event and limit bird contact to essential personnel.
12. Observe birds daily for signs of avian influenza or other diseases and immediately report signs of illness to the designated exhibition veterinarian, poultry health inspector or appropriate exhibition staff. Immediately remove sick birds from the exhibition area.
13. Do not share equipment with other exhibitors. If equipment must be shared, make sure it is cleaned and disinfected between uses.
14. Isolate any animals returning home from the fair for 30 days. Show and fair boards may require additional tests or vaccinations that would be listed in the fair premium book.

RODEO STOCK REQUIREMENTS

1. A visual inspection by the fair veterinarian is required.
2. Fair veterinarian to ascertain that Import Order No. 915 and Federal Interstate Regulations Title 9, CFR have been met on all out-of-state animals.
3. Fair Veterinarian may issue a health certificate to cover all rodeo stock.
4. There must be no commingling with exhibited and/or other livestock.

1. The rodeo will be held at 6 p.m. Friday Aug. 18, and 5pm Saturday, Aug. 19.

4-H/FFA ANIMAL RULES

County Fair General Livestock Rules and General and Minimum Animal Health Requirements apply.

- All 4-H and FFA exhibitors showing animals are required to do fitting & showing and daily herdsmanship in the barns in order to receive premiums.
- The 4-H/FFA exhibitors must perform herdsmanship, grooming, handling, and exercise of the project animal. This includes clipping and washing the animal. In cases where 4-H exhibitors are physically incapable of doing their own clipping or washing, only 4-H/FFA exhibitors may provide needed assistance. Violations of this rule creates loss of learning experience to the exhibitor and unfair competition to the other members, particularly in the Fitting and Showmanship contest, and is cause for disqualification of entry. ONLY EXHIBITORS are allowed in stalls/pens unless it is an emergency or specified by department.
- Animals must be under the 4-H member's regular care and management for the following periods of time prior to the official county exhibit activity, including junior livestock shows:

Breeding Beef: 90 days Cats: 60 days Cavies: 45 days Dairy (except Dairy Heifer Replacement): 90 days	Dairy Heifer Replacement: 60 days Dogs: 60 days Equine: 90 days Goat: 60 days	Llama/Alpaca: 90 days Market Beef: 120 days Rabbits and Poultry: 45 days Sheep and Swine (Breeding and Market): 60 days
--	--	--

Unless listed differently under specific divisions. Animals raised by the 4-H member from birth or hatching are exempt from the minimum time periods.

1. All exhibitors who show animals must show their own animals in both fitting & showing and type (obedience) except when he or she has more than one animal in the same class to receive premiums and awards. In the case of shared project animals, the situation will be dealt with on an individual basis.
2. Entries are open to purebred and high-grade stock owned and fitted by 4-H or FFA members. The judge has the right to disqualify any animal for any reason. Animals that are not properly fitted and trained will be rejected.
3. Animals shown in 4-H cannot be shown in an FFA class and vice versa. 4-H and FFA animals may show in the open class.
4. Any animal must be available for use in the "Judging Contest" unless a reasonable reason is presented.
5. Showing Horned Animals:
 - a. Market steers must be polled or dehorned; healed horns or re-growth must not extend more than two inches from the hairline. Horned breeding animals must have the horn tips covered as a safety precaution.
 - b. Horned, non-dairy goats or sheep may be exhibited in 4-H showmanship classes where animals are not exchanged between youth in the show ring. For a horned animal to be exhibited, it must have its horn tips covered. If the sheep or non-dairy goat has scurs (horn re-growth), these scurs cannot exceed 1 inch in length without the horn tips being covered.
 - c. Non-dairy horned goats and sheep may be shown in market and breeding classes, but they must have horn tips covered as a safety precaution. A county may implement a more restrictive policy, but not a less restrictive policy, regarding the exhibition of horned sheep and goats.
 - d. No dairy animals with horns are permitted except in the Junior Heifer Calf class. The definition of horns includes "scurs," "nubbing" or "stubs" that extend more than one inch beyond the skin.
 - e. No horned dairy goat animals are allowed.

OPEN CLASS: Anyone can enter. Often, but not always, divided into adult and youth categories. Exhibitors DO NOT have to belong to a club to participate!

EXHIBITOR: A person who enters displays or items into a Fair for judging, recognition and possible award.

BLUE RIBBON OR EXCELLENT: A blue is given to those entries who most nearly meet the standards established for the particular class or level of performance. Excellent does not indicate perfection, but is a wide grouping indicating a high degree of achievement toward the elements in the standards for the exhibit.

RED RIBBON OR GOOD: A red indicates those exhibits or individuals who rank good in relation to the particular standards or expected achievement for the class or contest.
Either the general level of the accomplishment is less than excellent or enough specific shortcomings are found to cause the placing to drop from excellent to good.

WHITE RIBBON OR FAIR: A white contains those exhibits or contestants who, upon evaluation, are found lacking and rate only average, acceptable or satisfactory for the standards established.

FITTING & SHOWMANSHIP: Term used in animals classes that not only judge the exhibitor's ability to show their project, but their ability to have properly prepared the project for the show.

- The Fair Board and Fair Manager reserve the right to refuse acceptance of work of questionable or objectionable subject matter.
- While every precaution will be taken to see that no damage occurs to entries, Clallam County and the Clallam County Fair Board assume no responsibility in case of loss or damages to submitted or accepted work.

SPECIFIC CATTLE RULES:

1. Entry forms for cattle entered in OPEN Type must be accompanied by a copy of the registration papers (except steer classes). Animals without registration papers submitted with registration will not be considered unless superintendent is notified of circumstances. Animals under one year of age may be exhibited if eligible for registration and accompanied by the registration number of the Sire and Dam. NO EXCEPTIONS! Registration copies will be returned at Fair time.
2. Specific Health Requirements: A) It is recommended that all heifers eligible for Brucellosis (Bangs) vaccination be vaccinated prior to the Fair. B) Non-vaccinated heifers, over 1 year of age, may be exhibited provided they have tested negative for Brucellosis. C) All eligible heifers or cows 1 year or older must have been vaccinated against Brucellosis. D) Plan ahead – it requires up to 10 days to receive blood test results from the laboratory for animals requiring a Brucellosis test. Any animal whose owner cannot produce evidence of vaccination, in the form of a tattoo, must have a negative official Brucellosis test done through a State or Federal laboratory within 90 days prior to the opening of Fair.

6. In group classes, all animals must be shown in an individual class to be eligible.
